Guidelines for Creating SoaringBeds®

Use your imagination to transform a hospital bed into a SoaringBed. Make something creative, wacky and innovative that no one has ever seen before. For example, Rocket Ship Bed that flies through space at night or Lilly Pad Bed that gently floats on a beautiful lake.

Here's How to Get Started:

1. Think of a theme for your bed and all the special things your invented bed will be able to do. You can create a rocket ship bed, a mountain climbing bed or a marshmallow bed. There are so many great beds that you can create.
2. Write the name of your bed on the top of the page.
3. Use Soaringwords Border to draw a picture of your special bed and then write what your bed can do.
4. Write your name and age on the bottom of your page.

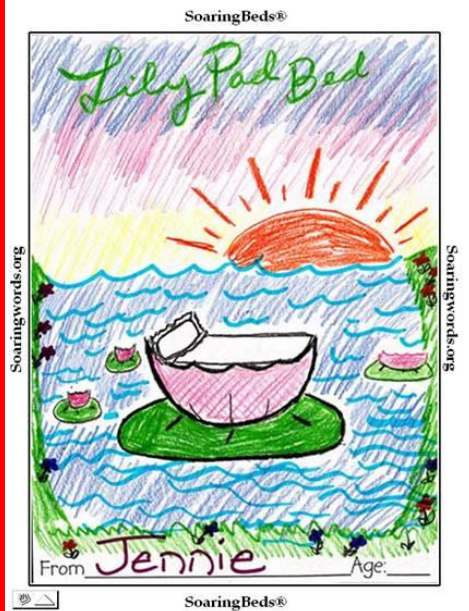

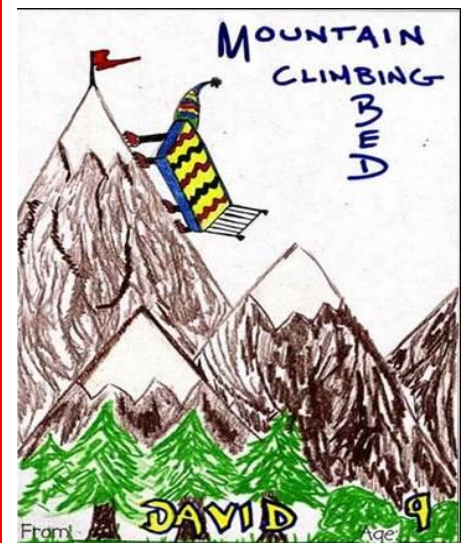

Pointers:

Do make your picture really big, bright and colorful. Fill the entire page with your picture and message.

Do make sure your words are legible and neat, so that they can be easily read.

After You Finish Your SoaringBed:

You can decorate your room or give it to someone special.
